

Decision Support Services

Company Overview: Provide software solutions to insurance and auto body repair industries

web site: www.betterestimating.com

Location: San Diego, CA

Industry: Technology

NetDocuments Usage: Document Management

Software switched from: Windows File Directory

CHALLENGE

- "We are a dispersed company where we all work out of our homes so the problem we had was moving information between all the different people in the company."

SOLUTION

- "The overall objective of our company was to easily and efficiently share documents among the employees."
- "To have a central repository of all our information."
- "We chose NetDocuments primarily because it was so easy to use."

RESULTS

- "NetDocuments has met our primary needs to have a central location of our information, ease of dissemination, and reliability."
- "NetDocuments has been really easy to use."
- "If you know anything about using a computer it is very intuitive."
